# PREFACE.

Is a Spetter a Necessary School-Book?—The oldtell 1 Spetting Book has been discarded by teachers genrally. Many val I object in swere properly urged against these, and it produces away.

Futire decline pen oral spelling may also be fitly the action of bygoe days. Unfortunately for the old the period of the period with all the folly and weakof "ral pelling," and this partly accounts for its region.

What have the reference is given as a substitute for a Speller? They have reference has a little allows much more wholestone that the second parts of the hours to be for the little for a reference has a dictation hours, and the polar toroid hours on mixty to book it by their holding, and dignerate on the which they attended, and they all have her taught. The Roders do not to all the reference have an hour arranged in proper form for the late of the written for all the results with have to pell in the form they are not arranged in proper form for the late of the written for all the transfer of the transfer of the late of the written for all the transfer of the late of th

spelling-books have recently been issued. That these were necessary in England is clearly shown by the fact that at a recent Civil Service Examination "no less than 1,861 out of 1,972 failures were caused by spelling."

A practical dictation Speller is clearly a necessity, and this work has been prepared to supply an obvious want in the programme of Canadian schools. The claim to the name "Practical" is based on the fact that it is not a mere collection of thousands of "long-tailed words in osity and ation," but contains a graded series of lessons to teach the pupils the proper spelling of the words which all have to use.

Prominent Features. The book is divided into eight parts, as follows: -

PART I. contains the words in common use in daily life, together with abbreviations, forms, &c. These are the words that should first be learned. If a boy has to leave school early, he should at least know how to spell the words of every-day occurrence in connection with his business.

PART II. gives words liable to be spelled incorrectly because the same sounds are spelled in various ways in them.

PART III. contains words pronounced alike, but spelled differently with different meanings.

PART IV. contains a large collection of the most difficult words in common use, and is intended to supply material for a general review, or for spelling matches and tests.

PART V. Contains the words most commonly spelled incorrectly in Canadian schools. It was prepared from lists sent by many teachers. Pupils who can spell the words in Part V. will make few mistakes in spelling.

PART VI. contains spaces in which each pupil should write the words he is liable to misspell. This is a most important feature.

PART VII. contains selections for dictation lessons.

They should be memorized by the pupils. They may thus aid in the training of language and character.

Part VIII. is devoted to etymology.

### HINTS ON TEACHING SPELLING.

When should Pupils begin to Learn to Spell?—
There should be no oral spelling, or written spelling either,

from ry, during the first year and a half or two years of
all life; yet pupils should be learning to spell from the
text. How? By copying, copying, COPYING. By copying in script well-written sentences set by the teacher on
the bord. Sometimes the sentences may be taken from the
prior, but they should generally be the language of the pupils
the live, including certain words given by the teacher.

Assigning Spelling Lessons.— The teacher should not by y, "Prepare the teach lesson," or, "Y ur distation will be to first twelve lines on page 24." The pupils should produce for the teacher to words of the lesson, looking at the second years of the lesson. Peruliar or difficult words of the written on the blackboard, and pelled simultanessly by the pepth, and hints dould be given to aid in the program of the lesson.

Preparing Spelling Lessons. We wish to teach the form of the wird, it their und. Unfortunately, the larms of wird do not always excess with the und in English, here the firm of a word must be impressed on the old through the eye, and not the ear. It is perfectly the resource that the art of taking good applies consistent when purely to see words or match. The London Times and, "Spelling is been by reading, as I is those but

reading can teach spelling." It may be accepted as a rule that a good reader is always a good speller. The affect all point the thoughtful teacher to the couclusion that we have already stated;—spelling depends on the power of a ing. ith precision. It follows that the exercise which compele the pupil to look most carefully at words must be the best in the 1 of preparing a spelling lesson. Unquestionably this exercise is transcription. Let the pupils copy on their slates the lesson to be prepared. The lesson is as be copied as a hose exercise, if due care be taken by the teacher in examining both spelling and writing. This is necessary in order to compel scrutinizing attention to the words to be copied. The whole value of the exercise depends on this being done.

Repeating the letters of a word orally is of little lating benefit. Make the pupils see the words, and if possible never let a pupil see a word wrongly spilled.

Testing Spelling Classes. There are only two methods, oral and written. The oral method alone is of very little practical value. An American writer records the ene of a young man "who won three prizes at spelling schools, but made five mi takes in spelling in a note written to a School Board." Oral spelling does not accustom the eye to the form of the word in writing. This is a fatal objection to it, and all modern teachers recommend that spelling long be conducted chiefly in writing

Correcting Spelling Lessons. They must be corrected thoroughly. If proper preparation has been made as recommended very few errors will be made. In a large elabete teacher will not be able to examine personally the book or slate of each pupil, except in the case of review lessons consisting of words previously misspell lin the class. The should always be examined by the teach r. In other lessons one of the following plans may be adopted:—

# PREFACE TO NEW AND ENLARGED EDITION.

With a view to perfecting the Precioul Siller, and making it in every respect worthy of the name "precal," two new chapters have been added, Precy, and Vi.

Part V. was compiled from lists of the word commonly mispelled in schools in all parts of the Dominian and i will therefore be a most important addition to the back. It is a fact worthy of not that the pupils throughout Canada fail in the spelling of nor rly the sum word.

Part VI. is intended to be the special spelling back of the individual child who own the book. It will form the best basis for reviewing, not only during chool life, but in after years.

We sacrifice to Dress, till household joys

And introduces Hunger, Frost, and Woe,

Learn the difference between him who wields the adze and him who ever adds to his wealth; between the Bey of Tunis and the Bay of Naples, the bays of Europe and the green baize tablecover, the graceful boughs of the beech and the swelling bows of the boat on the beach, or the polite bows of the beau bending like a bow; between the feminine belle and a brass bell. a policeman's beat and a vegetable beet, the bight of a rope and the bite of a rattlesnake, the birth of a child and the berth of a sailor, the breech of a gun and the breach which the latter makes in a wall, a broach for a roast and a brooch for a lady, a rabbit burrow and a municipal borough, a brass cannon and an ecclesiastical canon, a cession of territory and a session of Parliament, the cord of a whip and the chord of a fiddle, the dough in a kneading trough and the doe in the forest, a cattle-fair and a cab or omnibus fare, a school-fellow and the felloe of a wheel. All such words demand the learner's special attention, if he wishes to avoid the ludierous blunders of those who write hairbrained for harebrained, bearfaced and bearfooted for barefaced and barefooted, poletax for poll-tax, plumline for plumbline, raindear for reindeer, duelap for dewlap, tailbearer for talebearer.

Our Father who art in heaven, hallowed be thy name. The kingdom come. They will be done on earth, as it is in heaven. A word may part the dearest friends, — One little, unkind word, Which in some light, unguarded hour The heart with anger stirred.

A look will sometimes send a pang
Of anguish to the heart:

E'en in a heart that's broken.

## AFFIXES.—(Sometimes called postfixes or suffixes.)

Affixes are letters or syllables placed at the end of a word to modify its meaning.

The affixes usually determine the part of speech to which the words they form belong, and therefore may be arranged according to the classes of words formed by their aid.

Some terminations have several meanings, and are used in ferming different parts of speech—as, ats, in captivate and potentate; ish, in burnish and blackish; en, in weaken and wooden.

The same word is often used for the act and the product; the state and the quality; the place where and the practice of some art in it—as, formation, animate, surgery.
